

The more sensitive the data the more robust the security measures will need to be in place to protect it.

6.1.1. Technical Requirements

- The school will ensure that ICT systems are set up so that the existence of protected files is hidden from unauthorised users and that users will be assigned a clearance that will determine which files are accessible to them. Access to protected data will be controlled according to the role of the user. Members of staff will not, as a matter of course, be granted access to the whole management information system.
- Personal data may only be accessed on machines that are securely password protected. Any device that can be used to access data must be locked if left (even for very short periods) and set to auto lock if not used for five minutes.
- All storage media must be stored in an appropriately secure and safe environment that avoids physical risk, loss or electronic degradation.
- Personal data can only be stored on school equipment (this includes computers and portable storage media (where allowed)). Private equipment (ie owned by the users) must not be used for the storage of personal data.
- The school / academy has clear policy and procedures for the automatic backing up, accessing and restoring all data held on school systems, including off-site backups. (The school will need to set its own policy, relevant to its physical layout, type of ICT systems etc. Schools need to be aware of a significantly higher risk of a data loss, and should ensure that they can recover from a cyber-attack.)

6.1.2. Portable Devices

When personal data is stored on any portable computer system, USB stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected (many memory sticks / cards and other mobile devices cannot be password protected)
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete
- the school will need to set its own policy as to whether data storage on removal media is allowed, even if encrypted – some organisations do not allow storage of personal data on removable devices

- *We would advise that...* Only encrypted removable storage purchased by the school is allowed to be used on school

computers.

6.1.3. Passwords

- All users will use strong passwords which must be changed regularly. User passwords must never be shared. It is advisable NOT to record complete passwords, but prompts could be recorded.

6.1.4. Images

- Images of pupils will only be processed and transported by use of an encrypted memory stick and permission for this will be obtained in the privacy notice or other photographic permission notice.
- Images will be protected and stored in a secure area.

6.1.5. Cloud Based Storage

- The school / academy has clear policy and procedures for the use of “Cloud Based Storage Systems” (for example Dropbox, Google Apps and Onedrive) and is aware that data held in remote and cloud storage is still required to be protected in line with the Data Protection Act. The school will ensure that it is satisfied with controls put in place by remote / cloud based data services providers to protect the data. See advice from the DfE below:-
- <https://www.gov.uk/government/publications/cloud-software-services-and-the-data-protection-act>

6.2. Third Party data transfers

As a Data Controller, the school / academy is responsible for the security of any data passed to a “third party”. Data Protection clauses will be included in all contracts where data is likely to be passed to a third party as well as data processing agreements.

http://ico.org.uk/for_organisations/data_protection/topic_guides/data_sharing

6.3. Retention of Data

- The guidance given by the Information and Records Management Society – [Schools records management toolkit](#) will be used to determine how long data is retained.
- Personal data that is no longer required will be destroyed and this process will be recorded.

6.4. Systems to protect data

6.4.1. Paper Based Systems

- All paper based personal data will be protected by appropriate controls, for example:
 - Paper based safeguarding chronologies will be in a locked cupboard when not in use
 - Class Lists used for the purpose of marking may be stored in a teacher's bag.
- Paper based personal information sent to parents will be checked by Admin staff and the Headteacher, before the envelope is sealed.

6.4.2. School Websites

- Uploads to the school website will be checked prior to publication, for instance:
 - to check that appropriate photographic consent has been obtained
 - to check that the correct documents have been uploaded.

6.4.3. E-mail

E-mail cannot be regarded on its own as a secure means of transferring personal data.

- Where technically possible all e-mail containing sensitive information will be encrypted by attaching the sensitive information as a word document and encrypting. The recipient will then need to contact the school for access to a one-off password.

6. Data Sharing

The school is required by law to share information with the LA and DfE. Further details are available at:

<https://www.gov.uk/guidance/data-protection-how-we-collect-and-share-research-data>

Durham LSCB also provides information on information sharing at:

<http://www.durham-lscb.org.uk/wp-content/uploads/sites/29/2016/06/Guide-for-professionals-on-information-sharing.pdf>

Schools should ensure that, where special category data is shared, it is transmitted securely for instance by secure e-mail or is transferred in tamper proof envelopes securely delivered to the recipient.

7. Data Breach – Procedures

On occasion, personal data may be lost, stolen or compromised. The data breach includes both electronic media and paper records, and it can also mean inappropriate access to information.

- In the event of a data breach the data protection officer will inform the head teacher and chair of governors.
- The school will follow the procedures set out in Appendix 5.

8. Policy Review Reviewing:

This policy will be reviewed, and updated if necessary every two years or when legislation changes. *GDPR is due to be implemented in May 2018.*

Date: Review:

Signed:
Chair of Governors

Adopted by the Governing Body on _____

The Data Protection Officer is Mrs Sue Wilson (Deputy Headteacher)

Appendix 2 - Privacy Notices

These are now a separate attachment

Appendix 3 - Glossary

GDPR - The General Data Protection Regulation. These are new European-wide rules that are the basis of data protection legislation. They are enforced in the UK by the ICO.

Data Protection Act 1998: Now superseded by GDPR

All personal data which is held must be processed and retained in accordance with the eight principles of the Act and with the rights of the individual. Personal data must not be kept longer than is necessary (this may be affected by the requirements of other Acts in relation to financial data or personal data disclosed to Government departments). Retention of personal data must take account of the Act, and personal data must be disposed of as confidential waste. Covers both personal data relating to employees and to members of the public.

ICO:

The Information Commissioner's Office. This is a government body that regulates the Data Protection Act and GDPR

The ICO website is here <http://ico.org.uk/>

Data Protection Act 1998: Compliance Advice. Subject access – Right of access to education records in England:

General information note from the Information Commissioner on access to education records. Includes timescale (15 days) and photocopy costs.

Data Protection Act 1998: Compliance Advice. Disclosure of examination results by schools to the media:

General information note from the Information Commissioner on publication of examination results.

Education Act 1996:

Section 509 covers retention of home to school transport appeal papers. (By LA)

Education (Pupil Information) (England) Regulations 2005:

Retention of Pupil records

Health and Safety at Work Act 1974 & Health and Safety at Work Act 1972:

Retention requirements for a range of health and safety documentation including accident books, H&S manuals etc.

School Standards and Framework Act 1998:

Retention of school admission and exclusion appeal papers and other pupil records.

Appendix 4 - Check Sheet

Schools may find it beneficial to use this to check their systems for handling data.

- Data protection Officer in place
- Information asset log complete
- School able to demonstrate compliance with GDPR
- Training for staff on Data Protection, and how to comply with requirements
- Data Protection Policy in place
- All portable devices containing personal data are encrypted
- Passwords – Staff use complex passwords
- Passwords – Not shared between staff
- Privacy notice sent to parents/pupils aged 13 or over
- Privacy notice given to staff
- Images stored securely
- School registered with the ICO as a data controller
- Systems in place to ensure that data is retained securely for the required amount of time
- Process in place to allow for subject access requests
- If school has CCTV, appropriate policies are in place to cover use, storage and deletion of the data, and appropriate signage is displayed
- Paper based documents secure
- Electronic backup of data both working and secure
- Systems in place to help reduce the risk of a data breach *e.g. personal data sent out checked before the envelope sealed, uploads to websites checked etc*
